- Sources are held on [link: GitHub].

Taipei, Taiwan

Apr. 2020 - Present

### Open Source Project - A Cnake

DEVELOPER

- An uni year 1 final project for IM1003 Programming Design at National Taiwan University. The simple but fascinating game is developed all by ourselves with a little help from YouTube and other GitHub repos.
- The entire project is built natively on macOS with some terminal commands and Visual Studio Code. SFML library is required to build this game.
- The project is built for learning purpose - mainly C++, SFML, Game Developing, git. Please feel free to modify the code and submit merge requests for better gaming experience.
- Got familiar with GitHub, GitLab, and version control.
- Sources are held on [link: GitHub].

Taipei, Taiwan

Dec. 2019 - Jan. 2020
